TORONTO:

THOMAS MACLEAR,

PUBLISHER.

PREFACE.

THIS edition of the Ready Reckoner is one of the most complete ever offered to the public. It shows readily, at one view, the value of any number of feet, yards, gallons, pounds, &c., of any article, from 1 to 225, at rates ranging from one quarter of a cent up to 5 dollars, in so plain and easy a manner, that a person may, by looking at the head of the page for the given price, and at the column on the side for the number wanted, tell with the utmost accuracy the amount of value required.

In order to render this little work more valuable to Farmers, Manufacturers, Tradesmen, and Mechanics, there is added a Table, showing at one view a rate of wages, from one quarter of a day to twenty-six; from one dollar per week, to nine dollars and fifty cents; together with variety of forms of Notes, Bills, Receipts, Petitions, &c., which no person in business ought to be without.

The following examples are given to illustrate still more clearly the proper method of consulting the Tables:

Suppose you want to know what 33 bushels of corn, or a like number of any thing, would come to, at 67 cents per bushel:—by referring to page 92 (marked at the bottom thereof), and passing your eye over the numbers in the left-hand column until you come to 33, you will find opposite, and immediately in connection, $22.11, the sum required.

Again: What would 27 yards cost, at three five-penny bits (or three sixteenths of a dollar)? By looking at the left-hand column, and the top, for the proper numbers, I find the answer to be 5 dollars, 6¼ cents.
